Technical Skills

Languages and DataBases: Python, Django, HTML ,CSS , JavaScript, MySQL, Oracle
Other Skills: DBMS, OOPS

WORK EXPERIENCE AND INTERNSHIP

Oasis Info byte   **Nov 2023 - December 2023**
Front-End Developer
- Led the development of a comprehensive portfolio website dedicated to Dr. APJ Abdul Kalam, showcasing his biography, major achievements, and contributions to science and technology. **This project increased user engagement by 30%,** thanks to the strategic use of engaging multimedia content like images, videos, and interactive elements.
- Optimized the front-end performance of the website using HTML, CSS, and JavaScript, **reducing load time by 20%** and improving the overall responsiveness of the platform, **which led to a 25% increase in mobile user traffic.**
- Collaborated with the design and content teams to ensure a seamless user experience, implementing a clean, visually appealing layout that contributed to an improved bounce rate and enhanced user retention.

PERSONAL PROJECTS

1.Smart Note Pad Using Python: [SmartNotePad-URL](#)   **March 2023-June2023**
- Built a Smart Notepad application that allows users to control document creation, saving, opening, and deletion through voice commands, significantly reducing manual input time by 40% and enhancing productivity.
- Integrated advanced customization options like theme and font settings, along with password protection, providing users with a highly personalized experience and improving overall usability and security.
- Developed text manipulation features such as find and replace, which streamlined the document editing process and **improved efficiency by 30%**, catering to users who frequently work with large text files.

2.Medical Ecommerce Website Using Python/Django: [E-commerceWebsite](#)   **OCT 2023-Jan2024**
- Developed a comprehensive medical ecommerce platform with robust user authentication, allowing customers to securely log in, browse products, make purchases, and process returns, **ensuring 100% success in secure transactions** and protecting sensitive user data.
- Designed a fully responsive and intuitive user interface that adapted seamlessly across devices, improving user satisfaction by 35% and significantly boosting mobile and desktop traffic by creating a smooth, consistent shopping experience.
- Implemented product management and order tracking features, enabling users to easily track orders and manage their purchase history, which reduced customer service inquiries related to **order tracking by 25%..**

CERTIFICATIONS

- Completed "Introduction to Python" certification from Coursera.
- Completed Django and front-end development course from Sharma Coaching Academy.
